

Make a difference in your community.

Become a **Library Board Member**.

Apply by October 2, 2022.

In a world of constant change, Richmond Hill Public Library is here for our community. We offer a broad, trusted and personalized collection of ideas, resources and experiences that help each and every person in Richmond Hill improve their quality of life.

Grounded in a bold new strategic plan, the Library is on a path to modernize how we deliver services to our community. To help us on that journey, the Library would benefit from having Board members who meet one or more of the following:

- Passionate about the role of public libraries in supporting our community. You recognize our Library as essential to improving the quality of life of those we serve.
- Actively involved in community groups and/or services in Richmond Hill. You're able to acknowledge, understand and advocate for a wide range of community concerns and needs.
- Reflect and/or contribute to the diverse perspectives, voices and cultural viewpoints that represent our community.
- Demonstrate a unique blend of lived experiences, expertise and education that will deepen our understanding of current trends and community needs.
- Courage to resist the pressures that challenge the Library's foundational commitment and ability to fully represent our community. You're dedicated to preserving each and every residents' right to intellectual freedom and equitable services.

Library board members volunteer to serve four-year terms and are asked to attend virtual or in-person meetings at least seven times a year. Each member is expected to make time to review board materials that are delivered via email at least two days before scheduled meetings, and may be asked to attend special library and community events on behalf of the Library.

Your professional expertise can play a key role in helping the Library achieve its vision. Consider joining our board if you have experience in:

- Fundraising
- Content and Marketing
- Consumer technology
- User experience design (UX)
- Education or social work
- Space planning and interior design
- Legal
- Advocacy and government relations
